

Our App Ecosystem

Designed to be intuitive for the least technical users while delighting the technology enthusiasts!

OWNER/OPEARTOR/TENANTS

CloudEASE™	Parking Management Software in the Cloud: Parking rates, alerts, counters, PCI compliance, reporting suite & unlimited users.
CloudEASE™ Mobile	User friendly mobile access to the most commonly needed feature for iOS and Android devices
P-123 POS Handheld	Point of Sale (POS) or Rate & Validate on a handheld.
P-123 Validation	Validation via handheld or manually typing a ticket number into any web browser.
Video Intercom	When End Users press the “Call for Assistance” button, receive voice and video calls on your iOS or Android device. Remotely open the barriergate arm.

PARKERS/END USERS

P-123 Email Receipt	Scan a QR code to request an email receipt.
P-123 Reservations	Allow Parkers to make reservations. This holds a parking space in the lot counts for that date and time. View which reservations have checked in, out and update lot counts automatically!
P-123 Pay & Text to Pay	Allow Parkers to scan their ticket on their phone or text to pay for parking.
P-123 Monthly Card Access Payment Portal	End users may self-manage monthly RFID Card Payment.
Bluetooth/NFC Access	For Monthly Cardholders & Employees.
Loyalty Programs	Implement custom loyalty programs with Google Pay.

OTHER INTEGRATIONS

API Integrations	Integrate with third-party aggregators of reservations (i.e. Park Whiz, Spot Hero, Parking Panda), validations, monthly card access accounting programs (i.e. IntegraPark Paris) & more.
API to CloudEASE™	Direct access to your receipts, card usage and other data to pull parking data directly into your existing systems.
